

## **Internship Opportunity: Design Intern at Temso.ai**

### **About Us**

Temso.ai is the AI search analytics platform. We help marketers and agencies understand how their brand appears in AI search (ChatGPT, Google AI Overviews, etc.), compare themselves to competitors, and track brand perception in the AI era. We are a lean, bootstrapped two-founder team building a self-serve SaaS. Both of us have previously founded companies worth millions of euros, and we want this internship to be as much about design as it is about learning entrepreneurship.

### **The Opportunity**

We are looking for a design intern who is excited to bring creativity and polish to a startup environment. The role is flexible and could be part-time or full-time. You'll work directly with the founders and gain exposure to the real process of building and scaling a SaaS company, while developing a portfolio of high-quality design work.

### **What You'll Work On**

- Website redesign: Elevate our homepage to the level of top-tier SaaS startups.
- Product visualization: Create UI mockups and short animations that show Temso in action.
- Core marketing assets: Design templates for social posts, ads, and a pitch deck.
- Style guide: Help define a light design system with colors, typography, and UI rules.

### **What You'll Learn**

- How to design for conversion and credibility in SaaS.
- Product storytelling with visuals, mockups, and animations.
- How experienced entrepreneurs approach brand, marketing, and go-to-market strategy.

### **Requirements**

- A portfolio or samples that show your design skills.
- Interest in SaaS/web design and product visualization.
- Curiosity, creativity, and eagerness to learn.

### **What Success Looks Like**

- A slick, modern website that feels as credible as funded SaaS competitors.
- Product visuals that clearly communicate Temso's value.
- Reusable assets that give us immediate marketing momentum.

### **Details**

- Location: Remote, with possibility of occasional in-person meetings (Berlin/Potsdam).
- Language: English (internship tasks and communication).
- Duration: Flexible, part-time or full-time.
- Compensation: To be discussed.

### **How to Apply**

Please send us a short email with your portfolio or a few samples of your work to [gerardo@temso.ai](mailto:gerardo@temso.ai).
